

The Georgia Johnson Band

EPK

New Band. Big energy. Unforgettable shows. The Georgia Johnson Band officially launched as a full band this past year after years of performing together in different projects. We're quickly making our mark across New England with our "One Band. Every Era" and "Country Fest" shows. We tailor our music to any occasion bringing country, rock, pop, disco, Top 40, line dancing and party favorites to venues and events of all sizes. Take a look at our entertainment packages below and let us help make your next event one to remember.

The Georgia Johnson Band

Technical Rider

Thank you for booking The Georgia Johnson Band! We're excited to perform at your venue. Our goal is to make load-in, soundcheck, and the performance as smooth as possible.

Band Configuration

- Lead Vocal
- Electric Guitar / Backing Vocal
- Bass Guitar
- Drums / Backing Vocal

Performance Space

Minimum stage: 12' x 10'

Ideal stage: 16' x 12' or larger.

Sound

We can provide our own professional PA system for most small to medium-sized venues.

If the venue is providing sound, please provide:

- 4 vocal microphones (SM58 or equivalent)
- Drum microphones (kick, snare, overheads preferred)
- Guitar input
- Bass DI or amp
- Minimum 4 monitor mixes (or in-ear compatible outputs if available).

Vocal Effects

Lead vocals are an important part of The Georgia Johnson Band's sound. If the venue is providing a sound engineer and mixing console, we kindly request access to high-quality vocal reverb and effects suitable for live performance.

Our preferred vocal sound is:

- Clean and natural
- Warm and present in the mix
- Crisp and articulate
- Moderate plate or hall reverb (not excessive)
- Light delay when appropriate for the song

If available, we'd appreciate working with the sound engineer during soundcheck to dial in a vocal sound that best suits the venue and performance.

Power

Minimum of four dedicated electrical outlets near the performance area.

Lighting

Professional stage lighting is not required. Basic venue lighting is perfectly adequate. If stage lighting is available, we're happy to use it.

Load-In

Please allow 60–90 minutes before showtime for load-in and soundcheck. Close parking for unloading is appreciated.

Performance Options

- Acoustic Duo
- Full Band
- Country Fest Show
- Line Dancing Events
- Private & Corporate Events

Typical performance length: 2–3 hours.

Add-On Options

- Professional Line Dancers
- Line Dance Lessons
- Additional Performance Time
- Customized Song Requests
- Holiday Shows
- Scottish/Celtic/Patriotic Entertainment Packages
- Additional musicians Keyboard, Fiddle...

THE GEORGIA JOHNSON BAND

Hospitality Rider

Thank you for booking The Georgia Johnson Band!

We're excited to be part of your event and are committed to providing a fun, energetic, and professional performance. The requests below aren't demands-they simply help us perform at our best and ensure the day runs as smoothly as possible for everyone involved.

Refreshments

We greatly appreciate access to:

- Bottled water
- Assorted soft drinks
- Ice (if available)

Staying hydrated helps us deliver the best possible performance from start to finish.

Meals

Meals are never expected or required, but they are always sincerely appreciated, particularly during longer performances or events that take place over meal times. If food is available from the venue, we're grateful to be included—but please don't feel obligated.

Green Room / Changing Area

Whenever possible, we'd appreciate access to a private area where we can:

- Change into performance attire
- Warm up before the show
- Relax between sets
- Store personal belongings safely
-

A dedicated green room is wonderful, but any clean, private, secure room works perfectly.

Secure Storage

If a changing room isn't available, we kindly ask for a secure place where instrument cases, personal belongings, and valuables can be stored during the performance.

Parking & Load-In

Whenever possible, we appreciate convenient parking close to the performance area to make loading and unloading equipment as efficient as possible.

Reserved or staff parking is always appreciated when available.

Restroom Access

Please ensure performers have convenient access to restroom facilities before, during, and after the performance.

Breaks

For performances consisting of multiple sets, we typically take one 10-minute break between sets. We always do our best to return promptly and keep breaks as short as possible.

Occasionally, unforeseen circumstances—such as technical adjustments, equipment issues, weather conditions at outdoor events, or other unexpected situations—may require a few additional minutes. In these instances, breaks may extend to up to 15 minutes to ensure we can safely and professionally continue the performance.

We appreciate your understanding and will always communicate with the event organizer if any unexpected delays arise.

Tips

Whenever venue policy allows, we greatly appreciate the opportunity to place a tip jar or tip bucket near the stage.

While this is never expected or required, tips from guests help support the band and allow us to continue offering competitive pricing while investing in equipment, travel, and creating the best possible live entertainment experience.

If your venue has a no-tipping policy, we completely understand and are happy to respect your guidelines.

Communication

Clear communication is one of the biggest keys to a successful event.

Prior to the event, we kindly ask that a primary point of contact be designated for all booking details and event logistics. This allows us to prepare thoroughly and ensures everyone is on the same page.

On the day of the event, it is extremely helpful for us to know:

- Who is our on-site point of contact?
- Who should we speak with regarding any schedule changes or questions?
- Who will be handling payment at the conclusion of the performance?
- Who can assist us if any issues arise during the event?

Having one clear contact helps everything run smoothly for both the venue and the band.

Sound & Stage Crew

If your venue is providing sound engineers, lighting technicians, or stage crew, we greatly appreciate receiving their contact information in advance whenever possible.

Connecting before the event allows us to discuss technical requirements, stage setup, arrival times, and any venue-specific details ahead of time, helping ensure a smooth load-in, soundcheck, and performance.

Before the Event

Whenever possible, we appreciate receiving the following information before the performance:

- Performance address
- Load-in instructions
- Parking information
- Performance schedule and set times
- Venue contact information
- Sound and lighting details (if applicable)
- Technical contact information
- Event timeline
- Any announcements or special requests
- Dress code or event theme (if applicable)
- Indoor or outdoor performance details
- Expected audience size
- Payment method and who will be handling payment

The more information we have ahead of time, the better prepared we can be to provide a seamless, stress-free experience for everyone involved.

Merchandise (Optional)

If agreed upon in advance, we appreciate a small area to display merchandise or promotional materials. This gives guests the opportunity to support the band and helps us continue growing our audience.

Photography & Social Media

We love seeing photos and videos from your event! If possible, we'd be grateful if you could tag The Georgia Johnson Band on social media so we can share the memories with our audience as well.

Thank You

Thank you for choosing The Georgia Johnson Band. We genuinely appreciate every opportunity to perform and look forward to helping make your event a fantastic success.
